Dear Dr. Mike,

I would like to **thank you** and the staff at Renaissance Chiropractic for all you have done for me. I have been suffering from migraine headaches for the past 3 years. It was something I got used to "managing" in my daily life – through the use of an anti-depressant and pain medication. After CT scans, MRI's, other tests, and ruling out MS, doctors could not identify a specific cause for these migraines.

As you know, my sister recommended that I see you and try chiropractic. I'm so glad I did. Within weeks of chiropractic treatment and physical therapy my headaches were significantly decreased. I feel so much better than I have in the last couple of years. In February, I was able to get off the anti-depressant and I am now enjoying life without constant headaches and pain medication.

I am so grateful to have walked through the doors of Renaissance Chiropractic: it has truly been life – changing! I am continually telling everyone I meet about the miracle of chiropractic and highly recommend the doctors and staff at Renaissance Chiropractic.

My sincere thanks once again,

Christine
